

## MAKE A MOUSE

The mouse can be a Christmas ornament or a package decoration.

1. Use foam sheets or stiff felt. Trace and cut the mouse shape. (See pattern below.)
2. Use regular felt. Trace and cut the mouse ears. (See pattern below.)
3. Make slits in the body of the mouse, to insert the ears.
4. Use a candy cane or a pipe cleaner for a tail.
5. Glue the tail to the back of the mouse (hot glue or tacky glue).
6. Add googly eyes or beads for eyes; small pom pom or button for nose.
7. Add whiskers if desired. (Straw from a broom works well.)
